

Class: VALUE AND COLOR FOR AMAZING QUILTS
Name: Grace J. Errea; www.amazingquiltsbygrace.com

Color is important but Value is the key to creating exceptional art quilts. This workshop focuses on the important tools for creating inspirational botanicals, landscapes, and portraits. Grace will focus first on **Color** with an over view of color harmony, color theory, the psychology of color and the expressive aspects of color and value. She will then focus on **Value**.

Students will see value and color in a new way. They will learn how to create Grace's "**Periodic Table of Value and Color**" a **must have** tool for all art quilters.

Grace provides the fabrics for 8-value grey scale to get started and color copies of the Periodic Table to be used as reference.

Level: All

Supplies List:

Grace will provide (kit fee: \$10.00):

Fabric for the perfect 8-Value Gray Scale to start the Periodic Table
Grace's [Periodic Table of Value in Color](#) Reference Chart
Startup fabric and materials for the [Value Fan](#)

Students will provide:

Poster board, approx. 20" x 22"
Glue stick or fabric safe glue/basting glue
Paper and fabric scissors
Pens, pencils
Rotary cutter and board and 24" ruler
Color wheel (small is OK)

Array of fabrics (small scraps). All colors (yellow, red, blue, violet, green orange), and many values and textures. We are trying to build the "perfect" 8-Value scale for each color so, the more values you bring, the better the chance of completing your Periodic Table.

Fabrics should be 'tone-on-tone' (has a pattern or design which is the same color than the background fabric but darker or lighter and is "seen" as one color). Do not bring scraps with obvious prints or designs, such as florals, checks, etc. These will not work for this class.

Scraps of approx. 2" by 3" are all you need. The key is to have all the possible VALUES (variation from very light to very dark) that you can. These will be used to create the 8-Value scale for each color as shown in Grace's [Periodic Table of Value in Color](#).

Include scraps or Black & White fabric. This is the only time that distinct designs can be used but ensure the designs are small in size. The variation here is in the amount of black or white present.

You may not have all the values in all the colors yourself but if you bring what you can, to share with others, they will share with you.
